Who May Apply	Any qualified U.S. citizen.
Duties	The Board is charged with providing technical safety oversight of the Department of Energy's defense nuclear facilities. As part of a multi-disciplinary oversight team, and as an individual contributor, technical staff members initiate, plan and implement policies, procedures and programs to assess whether the Department of Energy's defense nuclear facilities are safely operated, and that there is no undue risk to the public's health and safety. In order to carry out this oversight responsibility, the Board is seeking applicants with work experience related to nuclear facility design, construction, operation, and decommissioning .
Qualifications Required	Individuals <u>must</u> have a bachelors or higher degree from an accredited college or university in one of the following engineering disciplines: Civil, Mechanical, Nuclear, Electrical, Chemical, Materials Science, Fire Protection or any related academic discipline, such as Physics. Advanced degrees are preferred. In addition, individuals with experience in one or more of the following areas will be considered: 1) nuclear facility design and construction; 2) electrical and instrumentation & control; 3) nuclear safety analysis; 4) chemical process operations; 5) nuclear weapon component manufacturing and surveillance; 6) nuclear weapon/nuclear explosive operations; 7) nuclear operations, 8) nuclear waste treatment or vitrification/ immobilization; 9) structural engineering; 10) fire protection; or 11) quality assurance. To be considered for the Pay Band II level, applicants must have at least a Masters Degree in one of the disciplines listed above or a Bachelors Degree in one of the disciplines above with 2 years of professional engineering experience. To be considered for the Pay Band III level, applicants must have at least 5 years of professional engineering experience in one of the areas above.

Basis for Rating	<p>If you meet the Qualifications Required, your application will be further evaluated by a technical panel. The panel will evaluate the application against the following: 1) your technical expertise and its relevance to the Board's work; 2) quality of education and technical experience; and 3) your professional interactions and the purpose of those interactions, meaning, at what level, how often, and for what purpose, do you interact with industry representatives, the public officials within DOE or other government agencies, etc.</p> <p>Applicants will be rated against these factors in order to place each candidate in an overall qualifications category of "A," "B," or "C," with the "A" and "B" candidates placed on the Best Qualified List. Only those candidates will be forwarded to the selecting official for further consideration.</p>
