# DEFENSE NUCLEAR FACILITIES SAFETY BOARD

625 Indiana Avenue, NW, Suite 700 Washington, D.C. 20004-2901  
(202) 694-7000

## ANNOUNCEMENT

**For Immediate Release**

**Washington, DC**

**May 14, 2008**

The Defense Nuclear Facilities Safety Board (Board) is pleased to announce the assignment of Mr. Todd Davis as one of the Board's Site Representatives at the Department of Energy's Los Alamos National Laboratory in Los Alamos, New Mexico. Mr. Davis will report for duty in May 2008, joining Mr. Brett Broderick, the Board's current Site Representative at Los Alamos National Laboratory.

As the Board's Site Representative, Mr. Davis will advise the Board with regard to the overall safety conditions at Los Alamos National Laboratory defense nuclear facilities, and will participate in the conduct of reviews and evaluations by the Board related to the design, construction, operation, and decommissioning of defense nuclear facilities. Additionally, Mr. Davis will act as the Board's liaison with Los Alamos National Laboratory management, federal, state and local agencies, the public, and industry officials.

Mr. Davis joined the Board in September 1994. Since July 2004, he has been one of the Board's Site Representatives at the Y-12 National Security Complex in Oak Ridge, Tennessee, overseeing uranium processing and storage activities including design and construction of the Highly Enriched Uranium Materials Facility and design of the Uranium Processing Facility. From 1999 to 2004, Mr. Davis was a Board Site Representative at the Savannah River Site in South Carolina.

Before joining the Board, Mr. Davis was an officer in the United States Navy assigned to Naval Reactors where he provided technical direction for the design, test and maintenance of Naval nuclear propulsion equipment. Mr. Davis graduated from Auburn University with a Bachelor of Science in Electrical Engineering and earned a Master of Engineering degree in Electrical Engineering from Stanford University.

Mr. Davis plans to reside in the Los Alamos area.
