Dr. Charles Carrigan
Geosciences and Environmental Technologies Division
Lawrence Livermore National Laboratory
P.O. Box 808, L-204
Livermore, California 94551

Dear Dr. Carrigan:

The Defense Nuclear Facilities Safety Board (Board) would like to thank you for your efforts in helping to make David Ralston's third-year intern assignment a success. The Board was pleased with the meaningful technical projects you assigned him to work on with the Geosciences and Environmental Technologies Division. The experience he gained with numerical modeling and field testing of flow and transport in the vadose zone will be invaluable in his work for the Board.

Sincerely,

John T. Conway
Chairman
