DEFENSE SAFETY BOARD

The Honorable John T. Conway
Chairman
Defense Nuclear Facilities Safety Board
625 Indiana Avenue, N.W.
Suite 700
Washington, D.C. 20004

Dear Mr. Chairman:

In your letter of July 9, 2003, you requested that our site offices report on the scope and periodicity of the training assessment conducted as required by Department of Energy Order 5480.20A. In a letter dated October 2, 2003, I indicated that the Department of Energy Nevada Site Office would complete its training assessment of the Device Assembly Facility by the end of 2003. In order to maximize use of resources, the Nevada Site Office had planned to conduct the Device Assembly Facility training assessment in conjunction with the operational readiness review for the Device Assembly Facility Glove Box, which had been scheduled for October 2003. The date for that operational readiness review has slipped to May 2004, because additional time was required to address pre-operational issues. The Nevada Site Office has informed me that even if the schedule changes again, they will complete the DAF training assessment no later than June 1, 2004.

Ms. Kathy Carlson, Manager, Nevada Site Office, is responsible for overseeing the training assessment. Please feel free to contact Ms. Carlson, or have your staff contact J. Nolan Bailey (702-295-1797) if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Everet H. Beckner".

Everet H. Beckner
Deputy Administrator
for Defense Programs
