Dear Mr. Lewis:

I have received word that you will not be renewing your contract for professional consulting services with the Defense Nuclear Facilities Safety Board (Board). While I deeply regret that we will no longer benefit from your many years of nuclear safety experience, I am pleased that you have found other interests to pursue in your retirement.

On behalf of the technical staff and the Board, I would like to thank you for your many contributions to the mission of our agency. Good luck in your retirement.

Sincerely,

John E. Mansfield, Ph.D.
Vice Chairman
