

Defense Nuclear Facilities Safety Board (DNFSB)
Planned Service Contract Inventory Analysis for FY 2015

The DNFSB report responds to the Office of Management and Budget's Office of Federal Procurement Policy (OFPP) request to submit to OFPP a planned analysis identifying which special interest function in its FY 2015 inventory will be evaluated for analysis. This submission provides the PSC, dollar obligated for the PSC in FY 2015, and a brief description of the rationale for selection.

DNFSB plans to analyze the function under PCS R425. DNFSB obligations in FY 2015 under PSC R425 totaled \$226,500.00. DNFSB is choosing PSC R424 for the following reasons:

PCS R425 is the only Special Interest Function obligated in FY 2015.

PCS R425 is the second largest overall DNFSB PSCs in terms of percentage of obligations.
