This Record contains a summary of the voice voting on this matter by the Board Members

Notes: The vote record will remain open for 24 hours to allow Board Members to provide vote comments.

Acting Chairman Hamilton: The purpose of the proposed hearings is to determine the intent of a DOE Order which is not related to a technical question but to one of relationships and information access. Although 42 U.S.C. § 2286b. does not limit hearings to technical matters, best practice would be to do so.

Further, it is unclear at this point whether DOE Order 140.1 will have any tangible deleterious effect on the Board's ability to carry out its mission. Allocating the substantial resources needed to conduct these hearings would be premature.

I therefore disapprove.
