

Exhibit 6—Examples of Difficulty Accessing Information

Difficulties observed since May 14, 2018, include access to the following:

- Documents needed to determine the veracity of a worker complaint related to safety at Los Alamos National Laboratory
- Documents related to safety challenges of transitioning to shiftwork at the Plutonium Facility at Los Alamos National Laboratory
- Deliberations during Nuclear Explosive Safety Studies at the Pantex Plant
- Technical basis documents from Los Alamos National Laboratory related to the redefinition of high explosive violent reaction
